Rating is based on the comparison between 2012/13 to 2011/12 (last year).
 Green = where the figure is less than last year.
 Amber = where the figure is the same as last year.
 Red = where the figure is greater than last year.

Note: The total number of incidents in the Patient Falls section, has been broken down further into categories from A to E - with A being the most severe and E being the least severe.
